COMPANY PROFILE

SAMA MAJAN INTERNATIONAL LLC

CR: 1173999

Last Update is on June 2024

Introduction

Welcome to Sama Majan International LLC (SMI), your premier destination for top-quality industrial equipment supply. Established in 2013 as a private family trading company, SMI has remained committed to excellence in providing a comprehensive range of products, from spare parts and tools to machinery and complete production lines. Our dedication to sourcing from both OEM and alternative manufacturers ensures that we offer the best solutions tailored to your needs.

With our main office situated in Oman, SMI has cultivated a solid reputation for reliability and stability since its inception. Our clientele spans multinational corporations, public-listed companies, and trading entities, primarily hailing from Oman, Saudi Arabia, Qatar, U.A.E, and Pakistan.

Discover unmatched quality and service as we continue our mission to exceed expectations in industrial equipment supply.

Business Scope

At SMI, we specialize in providing top-quality industrial equipment and solutions to a wide range of industries, including:

- Oil & Gas Industry
- Petrochemical Industry
- Electric Power Industry
- Power Plants
- Metallurgy & Steel Industry
- Cement Industry

Advantages

Next to close cooperation with Original Equipment Manufacturers (OEM), we are able to deliver spare parts at competitive prices. By instantly recognizing your product needs, we are able to concentrate our sourcing efforts and come back to you with a competitive offer within days. As a result we help to reduce financial and administrative costs without losing quality by:

- Providing hard-to-find products.
- Finding the most satisfactory prices and shortest possible delivery periods.
- Contacting alternative manufacturers on request in order to find different brands for a larger flexibility.
- Assistance in finding the best offers for complete production machinery

Our services

Our diverse portfolio of products and services includes:

1- Industrial equipment & Spare parts

2- Safety Equipment

3- Lube & Chemical

1- Industrial Equipment & Spare Parts

Mechanical

- Range of mechanical equipment and spare parts including but not limited to gears, bearings, couplings, belts, seals, and shafts sourced from reputable manufacturers.
- Products designed to withstand heavy-duty industrial applications and ensure optimal performance and longevity.

Electrical

- Comprehensive selection of electrical equipment and components such as motors, generators, cables, switches, and control panels.

Instrument

- Instrumentation equipment and components including sensors, transmitters, gauges, controllers, and actuators.

Air Conditioning Ventilation System & Equipment (HVAC)

- HVAC systems, components, and accessories for industrial applications, including air conditioners, ventilation fans, ducting, and filters
- Solutions to ensure optimal indoor air quality, temperature control, and ventilation in industrial environments.

2- Safety Equipment

Personal Protective Equipment (PPE)

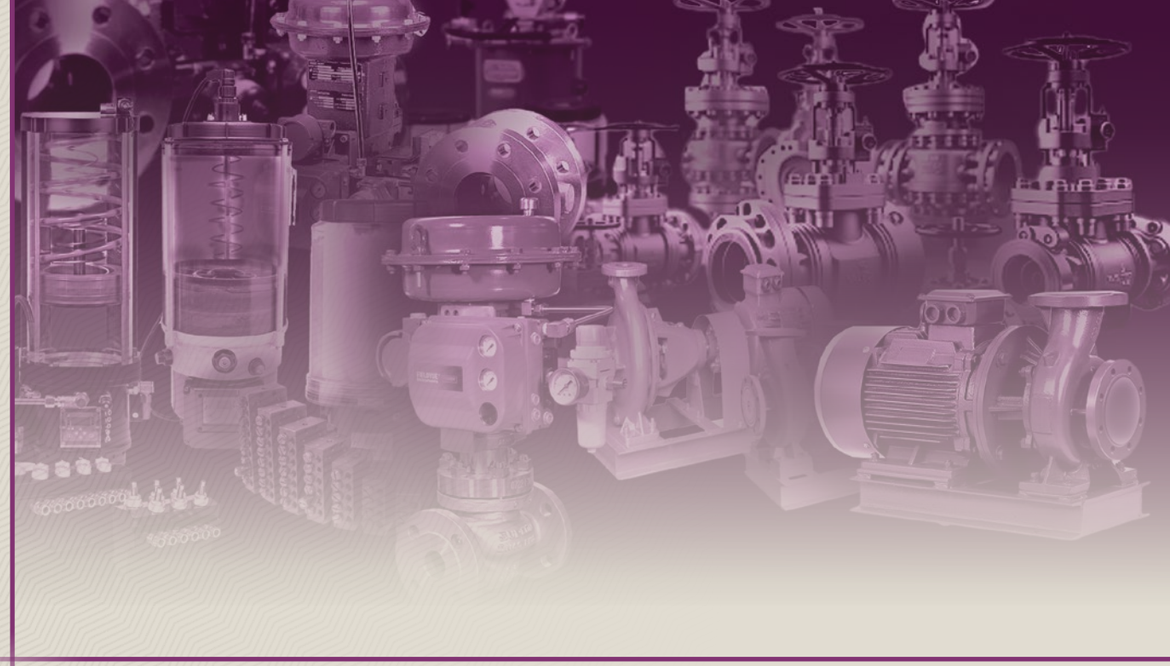

- Comprehensive range of PPE including safety helmets, goggles, gloves, respiratory masks, ear protection, and safety footwear.

3- Lube Product

Oil Lubrication and Cooler

- High-performance lubricants and coolants suitable for various industrial applications, ensuring smooth operation and efficient heat dissipation.

Project Design Scopes

Valves and Control Valves

- Wide range of valves and control valves, including cryogenic and API-certified types, suitable for diverse industrial applications.
- Products designed for precise flow control, reliability, and durability in challenging operating conditions.

Pumps

- Selection of pumps including metering, dosing, and chemical types, available in remote-control and manual configurations.
- Pump solutions tailored to specific application requirements for accurate fluid transfer and dosage control.

Complete set of Lubrication Pump

- Comprehensive lubrication pump systems comprising pressure switches, high-pressure distributors, and other essential components.
- Turnkey solutions for efficient and reliable lubrication of industrial machinery, ensuring optimal performance and equipment longevity.

Fluid Management Solution – Pumps
(Water Supply, Gasoline Supply, Chemical and Sewage)

Pumps are mechanical devices designed to move fluids (liquids or gases) by increasing their pressure and flow rate. They are essential components in various industries and applications, providing critical support in fluid transfer, circulation, and system pressurization.

GRUNDFOS

- **Circulator Pumps:** ALPHA, MAGNA
- **Centrifugal Pumps:** NB/NK, NBG/NKG
- **Submersible Pumps:** SP, SQ, SQE
- **Booster Pumps:** Hydro MPC, Hydro Multi-E
- **Dosing Pumps:** DDA, DDC, DDE
- **Sewage Pumps:** SEG, SL, S
- **Borehole Pumps:** SP, SQ

DANFOSS

- **High-Pressure Pumps:** APP (Axial Piston Pumps), PAH, PAHT
- **Hydronic Systems:** Circulator pumps for heating and cooling systems
- **Oil-Free Centrifugal Pumps:** Turbocor
- **District Heating Pumps:** Pumps used in district heating systems

CALPEDA

- **Centrifugal Pumps:** NMP, NM, NMD, NMS
- **Submersible Pumps:** GXR, GXV, GQS
- **Multistage Pumps:** MXH, MXP, MXS
- **Peripheral Pumps:** CT, CTM, CTP
- **Self-Priming Pumps:** A, N, C
- **Booster Sets:** Compact solutions for water pressure boosting

FLYGT - FLYGT, a brand under Xylem

- **Submersible Pumps:** FLYGT 2000, FLYGT 3000, FLYGT 5000
- **Dewatering Pumps:** BIBO series, Ready series
- **Wastewater Pumps:** FLYGT N-pumps, FLYGT C-pumps
- **Mixers and Agitators:** FLYGT 4000, FLYGT 5000

ESPA

- **Centrifugal Pumps:** Sigma, Prisma, Neptun
- **Submersible Pumps:** Acuaria, Vigilex
- **Multistage Pumps:** Multi, Multi Evo
- **Self-Priming Pumps:** Aspri, Iris
- **Pressure Systems:** Tecnoplus, TECNOPRES

KSB

- **Centrifugal Pumps:** Etanorm, MegaCPK, CPKN
- **Submersible Pumps:** Amarex, UPA
- **Multistage Pumps:** Multitec, Movitec
- **High-Pressure Pumps:** HGM, CHTR
- **Dewatering Pumps:** KRT, KWP
- **Sewage Pumps:** Amacan, Sewatec

LOWAR - LOWARA, part of Xylem

- **Centrifugal Pumps:** e-SH, e-NSC, e-SV
- **Submersible Pumps:** DOC, DIWA, DOMO
- **Multistage Pumps:** e-MP, e-HM, e-HME
- **Booster Pumps:** Genyo, Hydrovar
- **Self-Priming Pumps:** BG, GHV, CEA

GOULD PUMPS - Goulds Pumps, also under Xylem

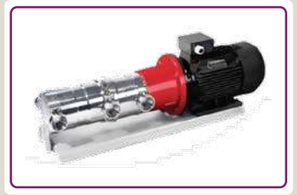

- **Centrifugal Pumps:** 3196, 3796, 3996
- **Submersible Pumps:** WS, HS, GS
- **Multistage Pumps:** 3393, 3395
- **High-Pressure Pumps:** 3316, 3600
- **Sewage Pumps:** GPM-Eliminator, 3171

Measuring Fluid

Measuring and control various automation processes can be managed by field instrumentation which is made based on application. Field Instruments designed to measure and monitor flow, level, pressure, temperature and analyze liquids and gases. These wide ranges of process instrumentation support the seamless integrated of instruments into all existing automation devices by visualizing, collecting, recording, measuring, controlling data and operate reliably and accurately in any situation.

SUMITOMO Drive Technologies – Japan
HANSEN (Reducer Gearbox) – Belgium

Gear reduction is a fundamental mechanical concept that plays a crucial role in various applications, including wind turbines, automotive systems, construction machinery, and industrial machinery. By providing the necessary speed reduction and torque multiplication, they are essential for improving the performance and efficiency of many mechanical systems.

Main Partners in Oman

WOERNER

EUGEN WOERNER, established in Stuttgart in 1922, specializes in the creation of items aimed at reducing friction and wear within machinery. Their products not only extend the operational lifespan of machines but also significantly reduce operating expenses. By minimizing frictional losses and optimizing lubricant usage, WOERNER enhances environmental sustainability through resource optimization and energy efficiency.

The product range

- Single & Multi-line Pumps (Manual & Gear)
- Distributors
- Level and Temperature Switches & Volume Flow Measurement Device
- Spray & Jet Lubricators
- Oil-Air Devices
- Control & Monitoring Devices
- Lubrication System Accessories

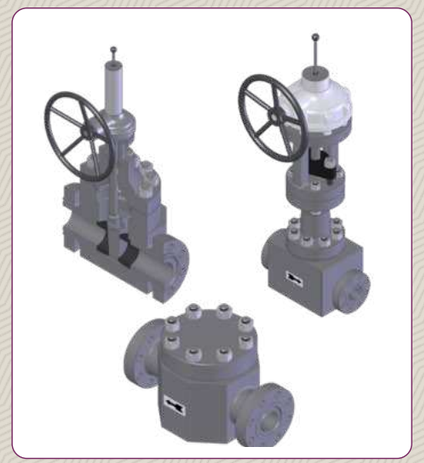

The Lubrication Technology for

- Chemical Industry
- Waste Water Treatment
- Energy & Environment
- Cement Industry

ORION SpA CON UNICO SOCIO

ORION was found in 1951 in Trieste (Italy). It presents its product line of Steel Valves for a wide range of industries as follow:

- Petroleum and Chemical industries
- Oil & Gas
- Mining
- Power Services

The product range

- Gate, Globe, and Check Valves (Cryogenic, API 600)
- Ball Valves (Floating,Trunnion,Top Entry, DBB)– CL150–2500(FB,RB)
- Butterfly Triple Offset Valves
- API 6A Valves
- HIPPS System
- Surface Safety Valves (SSV)
- Actuated Valves

LAPAR

An Italian Manufacturer in valve & actuation. It stands the test of time in:

- Water & Wastewater
- Desalination
- Chemical
- Petrochemical
- Pharmaceutical
- Boiler and Power Industries

The product range

- Control Valves
- Regulators
- Ball Valves
- Butterfly Valves
- Gate/Globe/Check Valves
- Dampers
- Actuators

Main Partners in Oman

SPECTRON GAS CONTROL SYSTEMS

It is tailoring products to fulfill the highest demands according to safety leak tightness and purity of product range is perfectly designed for a variety of processes and applications along with differing levels of gas quality.

- Steel
- Medical, Laboratory, & Emergency Medical Services
- Fire Fighting System
- Fish Farming
- Glass Production

The product range

- Pressure Regulators
- Valves
- Filter
- Pressure Control Panels
- Purge Devices
- Laboratory tapping points
- Gas Cabinet with control system
- Cylinder pressure regulators(Fixed-with flowmeter & with orifice selector)
- Alaram devices
- Gas Purification Systems

ITC PUMP (VERDER Pump)

DOSING PUMPS

It was founded in 1988 at Barcelona.

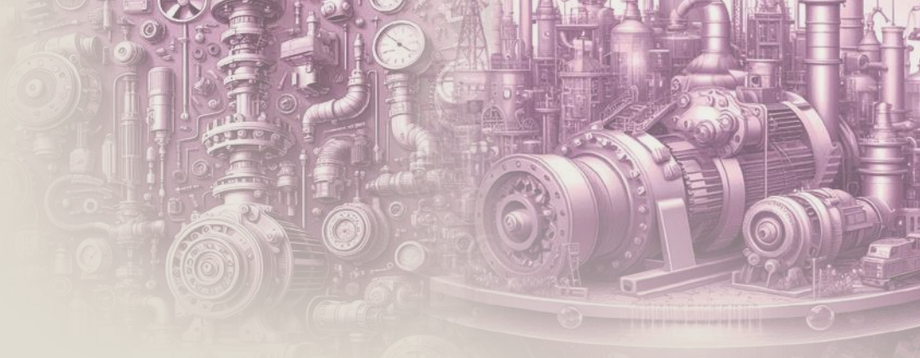

- Industrial Processes
- Wastewater Treatment
- Food Industry

The product range

- Dosing Pumps (Electrical, Hydraulic, & Magnetic)
- Controllers
- Mixers
- Sensors
